

In April, 400 IT seniors gather in Iasi for DevExperience, the absolutely normal international IT conference

During April 21st-24th 2018 in Iasi, [It's Wise](#) organizes the third edition of the event DevExperience, the absolutely normal international IT conference and the only conference for IT seniors in Iasi.

The concept of the edition this year hovers around Elon Musk and the first space machine, as homage brought to the positive things that can be done for humanity with the help of technology. That is why the question the organizers ask the attendees is: **"Want to go for a ride sometime in April? On Earth, obviously!"**

Another novelty of this edition is the **Digital Signage** technology, a modern multimedia experience brought by XSIGN and meant to improve the participants' experience at the event, with components such as Live event agenda, Social wall, Event gamification, Partners' wall, Live Q&A, Event registration or Quick survey. The attendees will therefore have useful information available at all times and will be able to actively attend the event, through discussions on the social media platforms, using the Q&A platform or the survey system.

DevExperience 2018 means **four full days of IT events at Iași:**

April 23rd: [Conference](#) – the central point of the event. For tickets go [here](#).

April 21st: [Community Events](#) together with the partnering companies, at Hilton Hotel by Hampton – workshops Hands on Experience, limited number of places, free access upon online registration:

- AI Workshop: Using Neural Networks for predictions in .Net powered by Levi9;
- CI/CD Workshop: Build. Deploy. ~~Pray~~. Test powered by Levi9;
- Performance testing: Charting the unknown powered by Mambu;
- REST Api testing using RestAssured powered by Wantsome.

April 22nd and 24th: One day [Workshops](#)- The ones who register for any of the workshops get a free lunch and automatically free access at the conference on Monday.

Workshops at DevExperience:

- Build WhatsApp mobile app in a day with React Native – with Vladimir Novick;
- Building A Self-Sufficient System (advanced) – with Viktor Farcic;
- Getting started with Kubernetes – with Ádám Sándor;

- Driving Lessons for Automation Testers – Seretta Gamba.

The conference on April 23rd will be held at Hotel Internațional in Iași and will take place between 09:00 a.m. and 6.00 p.m. and will be wrapped up with the unmissable Geek Party. The event will gather over 400 attendees and over **20 international speakers**, with vast experience in the IT industry and with important job titles in the most active IT companies in the world. Among the speakers of the conference, there will also be three Romanian speakers with fabulous life stories: **Bianca Buisman**, a graduate of the Informatics Highschool in Iasi and who now works at Google in Zurich; **Corina Pip**, Senior Test Automation Consultant in Cluj-Napoca and speaker at the most important international IT conferences in the world; **Vlad Galu**, also from Moldova who now works as Vice President Engineering for Globalsign, an important company in London.

The conference will start with two presentations held by **Yegor Bugayenko** (CEO @Zerocracy & Author The Elegant Objects) and **Vlad Galu** (VP Engineering @Globalsign). The participants will then join one of the five conference halls, according to their interest:

- **QA: Viktor Slavchev** (Senior QA & Testing Trainer & Blogger), **Corina Pip** (Senior Test Automation Consultant), **Elisabeth Hocke** (Agile tester, Change agent, Team glue), **Seretta Gamba** (Test Automation Consultant / Test Manager)
- **DevOps: Viktor Farcic** (Senior Consultant @ CloudBees), **Yury Petrov** (Site Reliability Engineer @ Google), **Ádám Sándor** (Senior Engineer @ Container Solutions), **Christos Matskas** (Senior Azure Developer PFE @ Microsoft)
- **FrontEnd: Eva Lettner** (Google Developer Expert, Front End @ trigo GmbH), **Marcel Cutts** (Cyberpunk enthusiast, Founder @ Asgard.tech), **Sebastian Golasch** (Software Developer @ Deutsche Telekom), **Vladimir Novick** (Software Architect, Consultant, Worldwide Speaker)
- **Future Tech: Sven Sauleau** (OSS Enthusiast, Member @ BabelJS), **Anastasia Voitova** (Security enthusiast & Product Engineer @ Cossack Labs), **Bianca Buisman** (Software Engineer @ Google), **Mark West** (Department Manager Data Science @ Bouvet)
- **Architecture: Nicolas Frankel** (Software Architect, Author of Integration Testing from the Trenches), **Patroklos Papapetrou** (Software Engineer @ Elastic), **David Schimtz** (Principal Architect @ Senacor Technologies), **Yegor Bugayenko** (CEO @Zerocracy & Author The Elegant Objects).

"What we wish is to see this event grow and become better every year. What we wish is to offer the local community quality events and professional creative experiences. What we wish is for the international IT industry to know that Iasi is the city in Romania where IT seniors from all over the world meet every spring to exchange information and good practice models at DevExperience. All this can happen with the support of every partner and attendee who have

already joined or will join our event. We are glad to have the support of many important IT companies of the local mass-media, of the tech bloggers and of the local companies that have wished to contribute to this hugely important event for Iasi.”, declared Iuliana Anton and Liviu Costea, the organizers of DevExperience.
